NORTH AMERICA

# VITA

VITA NORTH AMERICA IS A LEADING PROVIDER OF INNOVATIVE DENTAL PRODUCTS. WITH THE DEVELOPMENT OF THE WORLD-RENOWNED VITA CLASSICAL SHADE GUIDE, VITA SET THE SHADE STANDARD FOR ALL DENTAL MATERIALS. VITA HELPS LABORATORY TECHNICIANS AND CLINICIANS DELIVER HIGH QUALITY ESTHETIC RESULTS TO PATIENTS QUICKLY AND EFFICIENTLY.

## VITA Vacumat® 6000 M Bundle

The fully automatic, microprocessor-controlled firing unit is ideal for all dental ceramic firing requirements. The dental furnace impresses with superb quality and aesthetics, and offers outstanding firing results, user safety and convenience.

Thanks to its optimum ergonomic design, the furnace takes up a minimum amount of space. Two integrated cooling trays support safe storage of fired objects, while the clearly visible operating status display and a choice of acoustic alerts reliably provide information on the operating status, even across longer distances. The captivating design, available in one of six quality contemporary finishes (anthracite, crimson, sky blue, jet black, turquoise blue, traffic white), is esthetically pleasing for your work area.

All the firing information is displayed on the 10" LED tablet display (vPad Excellence), which offers 500 customisable firing programs, separate user profiles, full furnace control and current status.

**Dimensions** 330 x 230 x 444 mm  
13" x 9" x 17.5"  
**Weight** 13 kg  
28.7 lbs

**\$ 8,300**

## VITA Vacumat® 6000 MP Bundle

The highest quality standards are customary for VITA, and are demonstrated with the top model VITA vPad excellence. This control unit offers the user maximum functionality and operating convenience, for optimal ease of use.

The 10-inch TFT display with self-explanatory symbols and an integrated photo viewer, as well as a host of additional extras, offers even more convenient and exclusive intuitive "one-touch" operation for controlling up to four firing units.

The 6000 MP pressable furnace provides all the advantages of a modern firing and press furnace in a compact design. The machine will automatically detect the amount of

ingots and this prevents pressing errors and potential damage to the muffle. All the firing information is displayed on the 10" LED tablet display (vPad Excellence), which offers 500 customisable firing programs, separate user profiles, full furnace control and current status.

**Dimensions** 325 x 230 x 630 mm  
12.8" x 9" x 24.8"  
**Weight** 19 kg  
41.9 lbs

**\$ 11,000**
